THIS REPORT CONTAINS ASSESSMENTS OF COMMODITY AND TRADE ISSUES MADE BY  
USDA STAFF AND NOT NECESSARILY STATEMENTS OF OFFICIAL U.S. GOVERNMENT  
POLICY

Required Report - public distribution

**Date:** 12/19/2012

**GAIN Report Number:** NZ2017

## **New Zealand**

### **Food and Agricultural Import Regulations and Standards - Certification**

### **FAIRS Export Certificate Report**

**Approved By:**

Joe Carroll, Ag Counselor

**Prepared By:**

Vinita Sharma, Marketing Analyst

**Report Highlights:**

This report provides a broad overview of export certificate requirements for a representative sample of products exported to New Zealand. All sections of this report have been reviewed and updated to reflect New Zealand's most recent requirements. However, as these regulations are constantly updated, exporters interested in exporting to New Zealand are encouraged to check relevant websites for the most up-to-date information.

Sections update: All sections have been revised or updated.

## **Section I. List of All Export Certificates Required By Government**

### Summary

On July 1, 2011, Ministry of Fisheries (MFish) merged with Ministry of Agriculture (MAF) to support New Zealand's primary sector. On April 30<sup>th</sup>, 2012, this merger became Ministry of Primary Industries (MPI). MPI provides support to the whole of the primary sector. MPI is the key organization that regulates food imported into New Zealand.

The MPI has the lead role in biosecurity protection (e.g. preventing unwanted pests and diseases being imported into New Zealand, and controlling, managing or eradicating them should they arrive). New Zealand has strict biosecurity rules and most unprocessed products cannot be imported into New Zealand unless an import health standard has been developed. New Zealand defines biosecurity as "the exclusion, eradication or effective management of risks posed by pests and diseases to the economy, environment and human health." New Zealand's biosecurity requirements cover terrestrial, freshwater and marine environments. Import health standards specify the biosecurity requirements that must be met for trade to occur.

In New Zealand, import health standards are based upon risk analyses, which assess either a commodity or a pest/pathway combination. Biosecurity New Zealand takes legislative requirements and international obligations into account when conducting risk analyses and developing import health standards. The principal document for all New Zealand import health standards is the Biosecurity Act (1993). The act provides for management of risks associated with imported goods such as produce, seeds and plants principally through import health standards. New Zealand also adheres to the guidelines on risk analysis developed under the auspices of the Interim Commission on Phytosanitary Measures operating within the framework of the International Plant Protection Convention, and the World Trade Organization Agreement on the Application of Sanitary and Phytosanitary Measures. Information on import health standards for specific products can be found <http://www.biosecurity.govt.nz/ihsearch>.

## Export Certification Requirements

The table below provides export certificate requirements for many products exported to New Zealand from the United States.

Export Certificates and Attestations Required by New Zealand				
Products	Title of Certificate	Attestation Required on Certificate	Purpose	Requested By
Peanuts	No phytosanitary certificate required	No certification or inspection required by Biosecurity New Zealand if packaged for direct retail sale or in packages up to and including 10 kgs. If more than 10 kgs, inspection is required.  Please check the New Zealand Import Health Standard (IHS) (Section 9.8) <a href="#">Stored products for Human Consumption</a> for more information.	Biosecurity	BNZ <a href="http://www.biosecurity.govt.nz">www.biosecurity.govt.nz</a>
	Certificate of analysis from USDA or a State Department of Agriculture required	Consignments are tested at intervals depending on the frequency of import.  In all cases, a certificate of analysis is required for each consignment. Please check NZFSA requirement at <a href="#">Imported Food Products - Peanuts and Pistachios</a>	Peanuts are considered a high risk food because they have been found to contain mycotoxins, mold and insects.	NZFSA <a href="http://www.nzfsa.govt.nz">www.nzfsa.govt.nz</a>
Roasted/ Salted Pistachios	No phytosanitary certificate required	No certification or inspection required by Biosecurity New Zealand if packaged for direct retail sale or in packages up to and including 10 kgs. If more then 10 kgs, inspection is required.  Please check the New Zealand Import Health Standard (IHS) (Section 9.8) <a href="#">Stored products for Human Consumption</a> for more information.	Biosecurity	BNZ <a href="http://www.biosecurity.govt.nz">www.biosecurity.govt.nz</a>
	Certificate of analysis from USDA or a State Department of Agriculture required	Consignments are tested at intervals depending on the frequency of import.  In all cases, a certificate of analysis is required for each consignment. Please check	Pistachios are considered a high risk food because they have been found to	NZFSA <a href="http://www.nzfsa.govt.nz">www.nzfsa.govt.nz</a>

		NZFSA requirement at <a href="#">Imported Food Products - Peanuts and Pistachios</a>	contain mycotoxins, mold & insects.	
<b>Walnuts, Pecans, Almonds</b>	No phytosanitary certificate required	No certification or inspection required by Biosecurity New Zealand, if packaged for direct retail sale or in packages up to and including 10 kgs. If more than 10 kgs, inspection is required.  Please check the New Zealand Import Health Standard (IHS) (Section 9.8) <a href="#">Stored products for Human Consumption</a> for more information.	Biosecurity	BNZ <a href="http://www.biosecurity.govt.nz">www.biosecurity.govt.nz</a>
<b>Dried Fruits</b>	No phytosanitary certificate required	There are no certification or inspection requirements for dried, freeze dried, dehydrated or flaked fruit and vegetables that are commercially manufactured or produced and listed in the <a href="#">Plants Biosecurity Index database</a> , except for those that may have seeds that are entered as “Entry Prohibited” and those listed in sections 9.3, 9.4 and 9.7 of the <a href="#">Stored products for Human Consumption</a> import health standard.	Biosecurity	BNZ <a href="http://www.biosecurity.govt.nz">www.biosecurity.govt.nz</a>
<b>Stone Fruits (California Nectarines and Peaches)</b>	Phytosanitary certificate issued by the Animal Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture (USDA) required	Please see section 6.1.4 of the <a href="#">Fresh Peach and Nectarine from California</a> import health standard regarding phytosanitary certificate requirements.	Biosecurity	BNZ <a href="http://www.biosecurity.govt.nz">www.biosecurity.govt.nz</a>
	Additional declarations are required on the phytosanitary certificate	APHIS must provide the additional declarations to the phytosanitary certificate: "The peaches and nectarines in this consignment have: - been inspected in accordance with appropriate official procedures and found to be free of any visually detectable regulated pests specified by the New Zealand Ministry of Agriculture and Forestry.		

		<p>AND - been treated in accordance with Appendix 1(b) of the Workplan between NZ MAF and APHIS, USDA.</p> <p>AND - undergone appropriate pest control activities that are effective against those Risk group 2 regulated pests specified by NZ MAF.</p> <p>OR been sourced from an area free (verified by an official detection survey) from those Risk group 2 regulated pests specified by NZ MAF."</p> <p>Please check section 6.1.5 of the <a href="#">Fresh Peach and Nectarine from California</a> import health standard for the most recent requirements.</p>		
<b>Table Grapes (State of California)</b>	Phytosanitary certificate issued by the Animal Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture (USDA) is required.	Please see section 6.1.5 of the import health standard on <a href="#">Table Grapes from the State of California</a> for information on phytosanitary requirements.	Biosecurity	BNZ <a href="http://www.biosecurity.govt.nz">www.biosecurity.govt.nz</a>
	Additional declarations required on the phytosanitary certificate	APHIS must provide the following additional declarations to the phytosanitary certificates: (i) This is to certify that the table grapes described herein have been inspected according to appropriate official procedures and are considered to be free from the quarantine pests specified by New Zealand MAF and to conform with the current phytosanitary requirements of New Zealand MAF, including those for regulated non-quarantine pests; AND (ii) The table grapes in this consignment have been treated in accordance with Appendix 1(b) of the Workplan between NZ MAF and USDA APHIS. (iii) from the United States of America. treated in		

		<p>accordance with the measures specified by MAF Biosecurity New Zealand for the access of host material of <i>Drosophila suzukii</i>.</p> <p>Please check section 6.1.5 of the <a href="#">Table Grapes from the State of California</a> import health standard for the most recent requirements.</p>		
<b>Cherries (State of California)</b>	Phytosanitary certificate issued by the Animal Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture (USDA) is required.	Please see section 4.1 of the import health standard on <a href="#">Fresh Fruit and Vegetables</a> for information on phytosanitary requirements.	Biosecurity	MAF Biosecurity New Zealand
	Additional declarations required on the phytosanitary certificate	<p>APHIS must provide the following additional declarations to the phytosanitary certificates: The cherries in this consignment have:</p> <p>(i) been inspected in accordance with appropriate official procedures and found to be free from any visually detectable quarantine pests specified by the New Zealand Ministry of Agriculture and Forestry. <b>AND</b></p> <p>(ii) undergone appropriate pest control activities that are effective against: <i>Monilinia fructigena</i> <b>OR</b> been sourced from an area free (verified by an official detection survey) from: <i>Monilinia fructigena</i> <b>AND</b></p> <p>(iii) treated in accordance with Appendix 1 of the Arrangement between the New Zealand Ministry of Agriculture and Forestry and the United States Department of Agriculture, Animal and Plant Health Inspection Service concerning the access of host material of fruit fly</p> <p>Please see page 372 of the import health standard on <a href="#">Fresh Fruit and Vegetables</a></p>		

		for information on additional declaration on phytosanitary certificate		
<b>Cherries - <i>Prunus avium</i> (States of Washington, Oregon and Idaho)</b>	Phytosanitary certificate issued by the Animal Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture (USDA) required	Please see section 6.1.5 of the import health standard on <a href="#">Cherries Pacific North-West</a> for information on phytosanitary requirements.	Biosecurity	
	Additional declarations on the phytosanitary certificate required	APHIS must also provide the following additional declarations: (i) This is to certify that the cherries described herein have been inspected according to appropriate official procedures and are considered to be free from the quarantine pests specified by New Zealand MAF and to conform with the current phytosanitary requirements of New Zealand MAF, including those for regulated non-quarantine pests.; (ii) This is to certify that the cherries in this consignment have undergone appropriate pest control activities that are effective against those regulated high impact pests specified by NZ MAF.  Please see section 6.1.6 of the import health standard on <a href="#">Cherries Pacific North-West</a> for information on additional phytosanitary requirements.		
<b>Fruits (Mandarin/ tangerine, orange, apricot, pears, plums)</b>	Phytosanitary certificates issued by the Animal Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture (USDA) required for all fruit and vegetable consignments entering New	Please see section 2.1 and 2.2 of the import health standard on <a href="#">Fresh Fruit and Vegetables</a> for information on phytosanitary certificates.	Biosecurity	

	Zealand			
	<p>Additional declaration required on the phytosanitary certificate required – <b>Mandarin/Tangerine</b></p>	<p>APHIS must provide the following additional declarations to the phytosanitary certificates: Mandarins/tangerines in this consignment have: (i) been inspected in accordance with appropriate official procedures and found to be free from any visually detectable quarantine pests, specified by the New Zealand Ministry of Agriculture and Forestry. <b>AND</b> (ii) undergone appropriate pest control activities that are effective against: <i>Aleurocanthus woglumi</i> ; <i>Spiroplasma citri</i> [VO] ; <i>Xanthomonas campestris</i> <b>OR</b> been sourced from an area free (verified by an official detection survey) from: <i>Aleurocanthus woglumi</i> ; <i>Spiroplasma citri</i> [VO]; <i>Xanthomonas campestris</i> <b>AND</b> (iii) treated in accordance with Appendix 1 of the Arrangement between the New Zealand Ministry of Agriculture and Forestry and the United States Department of Agriculture, Animal and Plant Health Inspection Service concerning the access of host material of fruit fly species of economic significance into New Zealand from the United States of America .</p> <p>Please see page 364 of Import Health Standard on <a href="#">Fresh Fruit and Vegetables</a> for more information.</p>		
	<p>Additional declaration required on the phytosanitary certificate are required – <b>Orange</b></p>	<p>APHIS must provide the following additional declarations to the phytosanitary certificates: The oranges in this consignment have: (i) been inspected in accordance with appropriate</p>		

		<p>official procedures and found to be free from any visually detectable quarantine pests, specified by the New Zealand Ministry of Agriculture and Forestry. <b>AND</b></p> <p>(ii) undergone appropriate pest control activities that are effective against:  <i>Aleurocanthus woglumi</i>;  <i>Bemisia tabaci</i> [strain]  <i>Thrips palmi</i> OR  been sourced from an area free (verified by an official detection survey) from:  <i>Aleurocanthus woglumi</i>  <i>Bemisia tabaci</i> [strain]  <i>Thrips palmi</i> <b>AND</b></p> <p>(iii) treated in accordance with Appendix 1(b) of the Arrangement between the New Zealand Ministry of Agriculture and Forestry and the United States Department of Agriculture, Animal and Plant Health Inspection Service concerning the access of host material of fruit fly species of economic significance into New Zealand from the United States of America</p> <p>Please see page 365 of Import Health Standard on <a href="#">Fresh Fruit and Vegetables</a> for more information.</p>		
	<p>Additional declaration required on the phytosanitary certificate required – <b>Apricot</b></p>	<p>APHIS must provide the following additional declarations to the phytosanitary certificates: Apricots in this consignment have:</p> <p>(i) been inspected in accordance with appropriate official procedures and found to be free from any visually detectable quarantine pests, specified by the New Zealand Ministry of Agriculture and Forestry.  <b>AND</b></p> <p>(ii) undergone appropriate pest control activities that are effective against:  <i>Monilinia fructigena</i></p>		

		<p><b>OR</b>  been sourced from an area free (verified by an official detection survey) from:  <i>Monilinia fructigena</i>  <b>AND</b>  (iii) treated in accordance with Appendix 1 of the Arrangement between the New Zealand Ministry of Agriculture and Forestry and the United States Department of Agriculture, Animal and Plant Health Inspection Service concerning the access of host material of fruit fly species of economic significance into New Zealand from the United States of America .</p> <p>Please see page 371 of Import Health Standard on <a href="#">Fresh Fruit and Vegetables</a> for more information</p>		
	<p>Additional declaration required on the phytosanitary certificate are required – <b>Plums</b></p>	<p>APHIS must provide the following additional declarations to the phytosanitary certificates:  The plums in this consignment have:  (i) been inspected in accordance with appropriate official procedures and found to be free from any visually detectable quarantine pests, specified by the New Zealand Ministry of Agriculture and Forestry. <b>AND</b>  (ii) undergone appropriate pest control activities that are effective against:  <i>Monilinia fructigena</i> <b>OR</b>  been sourced from an area free (verified by an official detection survey) from:  <i>Monilinia fructigena</i> <b>AND</b>  (iii) treated in accordance with Appendix 1 of the Arrangement between the New Zealand Ministry of Agriculture and Forestry and the United States Department of Agriculture, Animal and Plant Health Inspection</p>		

		<p>Service concerning the access of host material of fruit fly species of economic significance into New Zealand from the United States of America .</p> <p>Please see page 374 of Import Health Standard on <a href="#">Fresh Fruit and Vegetables</a> for more information</p>		
	<p>Additional declaration required on the phytosanitary certificate required- <b>Nectarine/Peach</b></p>	<p>The nectarines/peaches in this consignment have:</p> <ul style="list-style-type: none"> <li>i. been inspected in accordance with appropriate official procedures and found to be free from any visually detectable quarantine pests, specified by the New Zealand Ministry of Agriculture and Forestry. <b>AND</b></li> <li>ii. (ii) undergone appropriate pest control activities that are effective against those risk group 2 regulated pests specified by NZ MAF. OR</li> </ul> <p>been sourced from an area free (verified by an official detection survey) from those risk group 2 regulated pests specified by NZ MAF.  <b>Note:</b> Combinations of treatment and area freedom are permissible for the aforementioned RG2 pests.  <b>AND</b>  (iii) treated in accordance with Appendix 1 (b) of the Workplan between NZ MAF and APHIS, USDA.</p> <p><b>AND</b>  (vi) treated in accordance with the measures specified by MAF Biosecurity New Zealand for the access of host material of <i>Drosophila suzukii</i> from the United States of America.</p>		

	<p>Additional declaration required on the phytosanitary certificate are required – <b>Pears (State of Washington )</b></p>	<p>The pears in this consignment have:  (i) been inspected in accordance with appropriate official procedures and found to be free from any visually detectable quarantine pests, specified by the New Zealand Ministry of Agriculture and Forestry.  <b>AND</b>  (ii) undergone appropriate pest control activities that are effective against:  <i>Conotrachelus nenuphar</i>  OR  been sourced from an area free (verified by an official detection survey) from:  <i>Conotrachelus nenuphar</i>  <b>AND</b>  (iii) treated in accordance with Appendix 1(d) of the Arrangement between the New Zealand Ministry of Agriculture and Forestry and the United States Department of Agriculture, Animal and Plant Health Inspection Service concerning the access of host material of fruit fly species of economic significance into New Zealand from the United States of America .</p> <p>Please see Import Health Standard on <a href="#">Pears from the State of Washington</a> for more information.</p>

<p><b>Grains/ Seeds for Human Con- sumption</b></p>	<p>Phytosanitary Certificate</p> <p>Additional declarations are required depending on the product</p> <p>Grains/Seed Analysis Certificate</p>	<p>U.S. exporters must meet certification requirements for individual products. Various options from pre-inspection certification to post-entry treatments are available under specific grain and seed categories. Each grain and seed product has different certification requirements.</p> <p>Please see Import Health Standard for <a href="#">Grains and Seeds</a> and import regulations</p>	<p>Biosecurity</p>	
<p><b>Shelf Stable Pet Foods with Bovine Meat</b></p>	<p>No phytosanitary certificate required</p>	<p>Please see section 7.2 of the import health standard on <a href="#">Pet Food</a> for information on canned/retorted pet foods containing beef/other bovine meat products/by-products and other animal products.</p>	<p>Biosecurity</p>	
	<p>Zoosanitary certificate required</p>	<p>Please see section 10 of the import health standard on <a href="#">Pet Food</a> or a sample Zoosanitary certificate.</p>		
<p><b>Seeds for Sowing</b></p>	<p>Basic Requirements</p> <p>Phytosanitary certificate issued by APHIS required</p> <p>Additional declarations required depending on the type of seed</p> <p>Seed Analysis Certificate</p>	<p>Only species of seeds and plants (including bulbs, cuttings, and tissue cultures) listed in the New Zealand <a href="#">Biosecurity Plants Index</a> can only be imported into New Zealand.</p> <p>All seed for sowing imported into New Zealand must meet the Basic requirements (section 2.2.2) of the <a href="#">Seeds for Sowing</a> import health standard, as well as any specific requirements as indicated by the Biosecurity Index.</p> <p>Phytosanitary certificate is required certifying that seed for sowing has been inspected by USDA and found to be free of any visually detectable regulated pests, and conforms to New Zealand’s current import requirements.</p> <p>For additional declaration, please see section 3.5 of the</p>	<p>Biosecurity</p>	

		Import Health Standard of <a href="#">Seeds</a> .  Please see section 2.2.2.4 section of the Import Health Standard of <a href="#">Seeds for seed analysis certificate requirements</a>		
<b>Frozen Pig by- products</b>	Zoosanitary certificate required.	Please see section 12 of Import Health Standard on <a href="#">Frozen Pig Meat</a> for a sample Zoosanitary certificate.	Biosecurity	

## Section II. Purpose of Specific Export Certificate(s)

See table in Section I.

## Section III. Specific Attestations Required on Export Certificate(s)

Please refer to the Table under Section I, for required attestations and the Biosecurity New Zealand website for specific information on IHSs and attestation requirements.

<http://www.biosecurity.govt.nz/ihs/search>

## Section IV. Government Certificate's Legal Entry Requirements

Entry requirements are set out on the Import Health Standards.

Original documents relating to the shipment must accompany each shipment. Most certificates are valid for one shipment only and are required to be issued by APHIS, USDA.

## Section V. Other Certification/Accreditation Requirements

U.S. exporter are required to meet both biosecurity and food safety requirements. For more information on New Zealand's food safety requirements, please visit [www.nzfsa.govt.nz](http://www.nzfsa.govt.nz). Please also refer to the FAS/Wellington report entitled Food and Agricultural Import Regulations & Standards which can be found at:

<http://gain.fas.usda.gov/Lists/Advanced%20Search/AllItems.aspx>.

## PHYTOSANITARY CERTIFICATE

TO: THE PLANT PROTECTION ORGANIZATION(S) OF  
**NEW ZEALAND**

PLACE OF ISSUE  
**YAKIMA, WASHINGTON**

NO.: **FPC 7412182**

DATE INSPECTED  
**SEPTEMBER 7, 2005**

**CERTIFICATION**

This is to certify that the plants, plant product or other regulated articles described herein have been inspected and/or tested according to appropriate official procedures and are considered to be free from the quarantine pests, specified by the importing contracting party and to conform with the current phytosanitary requirements of the importing contracting party including those for regulated non-quarantine pests.

**DISINFESTATION AND/OR DISINFECTION TREATMENT**

1. DATE	2. TREATMENT
3. CHEMICAL (active ingredient)	4. DURATION AND TEMPERATURE
5. CONCENTRATION	6. ADDITIONAL INFORMATION

**DESCRIPTION OF THE CONSIGNMENT**

7. NAME AND ADDRESS OF THE EXPORTER	8. DECLARED NAME AND ADDRESS OF THE CONSIGNEE
9. NAME OF PRODUCE AND QUANTITY DECLARED <b>20,000 KILOGRAMS GARBANZO BEANS</b>	10. BOTANICAL NAME OF PLANT <b>CICER ARIETINUM</b>
11. NUMBER AND DESCRIPTION OF PACKAGES <b>200 - 25 KG. BAGS</b>	12. DISTINGUISHING MARKS <b>PEAK BRAND</b>
13. PLACE OF ORIGIN <b>WASHINGTON</b>	14. DECLARED MEANS OF CONVEYANCE <b>OCEAN VESSEL</b>
	15. DECLARED POINT OF ENTRY <b>AUCKLAND, NEW ZEALAND</b>

**WARNING:** Any alteration, forgery, or unauthorized use of this phytosanitary certificate is subject to civil penalties of up to \$250,000 (7 U.S.C. Section 7734(b)) or punishable by a fine of not more than \$10,000, or imprisonment of not more than 5 years, or both (18 U.S.C. Section 1001).

**ADDITIONAL DECLARATION**

THE CICER ARIETINUM SEEDS FOR CONSUMPTION OR PROCESSING WERE REPRESENTATIVELY SAMPLED USING ISTA OR AGSA GUIDELINES, AND WERE TESTED AND FOUND FREE OF ASCOCHYTA RABIEI AT A NPPO APPROVED ISTA OR AGSA ACCREDITED DIAGNOSTIC LABORATORY AND WERE INSPECTED IN ACCORDANCE WITH APPROPRIATE OFFICIAL PROCEDURES, AND FOUND TO BE FREE OF THE REGULATED WEED SEEDS AS SPECIFIED BY MAP IN THE "SCHEDULE OF REGULATED WEED SEEDS", AND WERE INSPECTED IN ACCORDANCE WITH APPROPRIATE OFFICIAL PROCEDURES, AND FOUND TO BE FREE OF MEGASELM ARIETINA AND TROGODERMA SPP.

**Other Determinations**

Phyto exam 501.8 Grams  
Soil exam 501.8 Grams

No injurious pest, disease or soil found.  
The seed in this lot was examined by the Washington State Department of Agriculture - Seed Program and found to be free of weed seeds as specified by MAP in the "Schedule of Regulated Weed Seeds".

Findings: None.

**Remarks**

Analyzed using AOSA rules as a guideline.  
Officially sampled by the Federal Grain Inspection Service.

Tests Requested: Phyto exam, Soil exam. No other tests requested.

WARRANTY: We warrant that the test results reported on this report have been obtained using AOSA methods as a guideline unless otherwise specified. Test results reflect the condition of a laboratory sample and may not reflect the condition of the seed lot from which the sample was taken. Officially drawn samples represent the condition of the lot at the time of sampling.
